Letter of recommendation: Nano New Smell – Nanoworks

We at Bush Lapa have tried and tested the above mentioned product, Nano New Smell from Nanoworks, and would hereby like to make a recommendation for this product.

We have a rental unit that had a foul smell after a leakage occurred in the fridge drawer. After travelling in the sun for a couple of days, the smell had gotten into the aluminium of the drawer, as well as the canvas work on the caravan. Dawid Botha from Nanoworks encouraged us to try the above mentioned product on the caravan and it made a very big difference. It removed the foul smell, and left the caravan smelling fresh with a hint of citrus.

To find out more regarding this product, kindly contact Dawid Botha

We trust you will find the above in order
